- There are 2 PCB Panels in each Miner. Each Panel has 40 GC3355 chips. Each panel has it's own power socket and usb port.
- Therefore, one 80-chip blade miner is equivalent to 16 Gridseed 5-chip USB miners
- Official Scrypt hashrate is 5.2M (2.6M on each panel)
- Scrypt only mode: 64-70W on each panel. (140W per miner)

Gridseed's initial USB miner has proven to be very stable and support chaining dozens (or hundreds) of units. These units are based on the same GC3355 gridseed chip.

In stock, ships now!

Good Miner

Walter on May 24, 2014
The price is a little high, but its the best miner on the market, so it is worth the investment. Minersource have great support also. Recommended.
